

RSK PHARMACY

AAYUCAL

Ensure proper bone development in your pet

Strong bones are the foundation of a healthy body.
Make sure your pets get the right amount of Calcium & Phosphorous in their diet

Calcium supports
their growth & helps
to maintain healthy
bones & teeth

Phosphorous is a
vital nutrient for better
absorption of Calcium
in the body

Supports speedy healing & recovery
of fractures while ensuring proper
bone development in young pets

POWERFUL INGREDIENTS:

(Each 20 ml. Contains)

Calcium Gluconate	325.6 mg
Phosphorus	162.8 mg
Vitamin D3	1600 I.U.
Vitamin B12	20 mcg
Potassium Chloride	250 mcg
Sodium Chloride	250 mcg
Magnesium Sulphate	10 mg
Manganese Sulphate	1 gm
Zinc Sulphate	15 mg
Pantothenic Acid	800 mcg
Carbohydrate	100 mg
Folic Acid	0.04 mg

CALCIUM FOR HEALTHY BONE & TEETH

Calcium Gluconate increases calcium levels in your body. Calcium is a mineral that plays an important role in building strong bones and maintaining heart health.

Vitamin B12 supports the metabolic function of essential nutrients in your dog, especially fat and protein. Boosts Immunity:

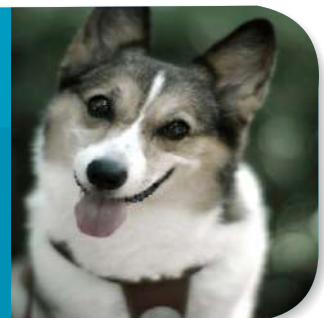

Phosphorus is a mineral that your dog's body needs for healthy teeth, bones, and a healthy metabolism. Usually, phosphorus works with calcium to help provide homeostasis in your dog's body. It also support healthy kidney function.

Vitamin D₃ is an essential nutrient that helps dogs regulate the balance and retention of calcium and phosphorus

Potassium Chloride Promotes Urine Dilution and Decreases Calcium Oxalate Relative Supersaturation

Feeding Schedule:-

Puppy's, Cats &

Kitten's: 3-5 ml twice daily orally

Adult Dogs/ Bitches: 10 ml twice daily orally or as directed by the Veterinarian.

Puppies	: 1-2 ml twice a day
Small breeds (< 10 Kg)	: 2.5-5 ml twice a day
Medium breeds (10-15 Kg)	: 5-7.5 ml twice a day
Large breeds (> 15 Kg)	: 10 ml twice a day

L-LEUCINE

The carbon skeleton of leucine can be used to generate ATP. It also regulate several cellular processes such as protein synthesis, tissue regeneration, and metabolism.

L-METHIONINE

It aids in the breakdown of fats by both preventing their accumulation in the arteries, aiding the digestive system & facilitating the elimination of heavy metals from the body, which can be converted into cysteine to prevent toxic damage in the liver

ISOLEUCINE

Isoleucine, as one of the branched chain amino acids, is also critical in physiological functions of the whole body, such as growth, immunity, protein metabolism, fatty acid metabolism and glucose transportation.

LYSINE

Lysine appears to help the body absorb calcium, and it plays an important role in the formation of collagen, a substance important for bones and connective tissues including skin, tendons, and cartilage

THIAMINE

Thiamine helps your dog to digest carbohydrates, grow muscles and maintain a healthy weight. Thiamine is also used as to create the building blocks (nucleotides) of your dog's DNA

RSK PHARMACY

Helps fast recovery of wounds

Visible results in three days

Heals all types of wounds

PREVENTS THE REGROWTH OF BACTERIA,
Thus helping in the rapidly healing
of open wounds in Pets.

100%
natural spray

Available 100 / 250 ml

ALL ACTIVE INGREDIENTS EXTRACTED FROM HERBS

KARANJA OIL is helpful in skin problems like itching, pain or bleeding. It helps in quick healing of wounds and provides relief from pain

NEEM promotes wound healing activity through increased inflammatory response and neovascularization in animals

TURMERIC has antiseptic properties that are known to cure both internal and external wounds. The antiseptic turmeric benefits also help in stopping the blood from oozing out of the injury and any further infections.

TURPENTINE OIL useful for its antiparasitic effects, over the wound also helps to remove the maggots as it creates an atmosphere deficit in oxygen which forces the maggots to come to the surface,

EUCALYPTUS leaves to treat wounds and prevent infection. Today the diluted oil may still be used on the skin to fight inflammation and promote healing

FLAXSEED OIL is very useful in healing wounds. It promotes the regeneration of skin collagen by increasing fibroblast

PREVENT INFECTION

Earth's Finest Ingredients

BORIC ACID efficient topical agent for the effective eradication of wound infections caused by a large variety of bacteria and fungi.

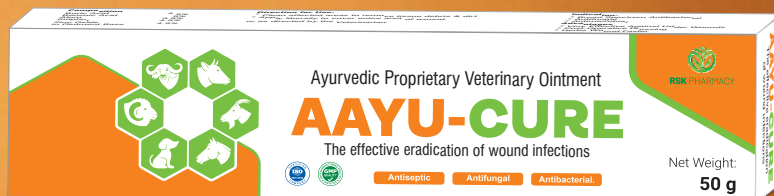

BENZOIC ACID helps prevent infection caused by bacteria.

ZINC OXIDE increases re-epithelialization and wound healing, decreasing the rate of deterioration and infection.

ALUM helps in quick healing of the wound, decreases swelling and brings back the normal texture of the skin. This is due to its Kashaya (astringent) and Ropan (healing) properties. Alum also works on the wound by controlling bleeding because of its Raktastambhak (hemostatic) properties.

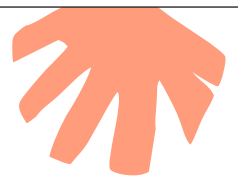

TURMERIC, NEEM, EUCALYPTUS & KARANJA promote wound healing activity as they have antiseptic properties and accelerate the wound healing process and prevent infection. They are also helpful in skin problems like itching, pain or bleeding.

RSK[®] PHARMACY

Puppy Delight

HIGHLY PALATABLE

High Energy and protein levels to support healthy growth

EASY TO MIX
EASY TO PREPARE
EASY TO DIGEST

Suitable from 15 days to 2 months of age & also suitable for aged dogs who can't eat solid food

Key FEATURES

Promotes growth and development

Added with DHA, Pre Biotics and Pro Biotics

Suitable for all breeds.

Contains whey protein

Quality Ingredients:

Whole Milk Powder Rice Flour, Whey Protein, Natural Fiber, Essential Fatty Acid, Pre-Biotics, Pro-Biotics, Digestive Enzyme, DHA, Vitamins & Minerals

DHA

DHA is a major structural component of the brain, as well as the most abundant fatty acid in the brain. It plays a vital role in the development of a puppy's central nervous system and retinal function.

Vitamin & Minerals

Vitamins and minerals are significant components of dog nutrition. Vitamin E supports the growth of puppies and is a fat-soluble vitamin. The right vitamins help your dog's body to grow and repair itself.

Fatty Acid

Fatty Acid benefits include: supporting healthy gums, better digestion and reduced inflammation. Omega 3 fatty acids also help our best pals have healthy skin and show off a shiny coat.

Digestive Enzymes

Digestive enzymes break down your dog's food into tiny pieces that are small enough to be used to fuel crucial life functions.

Pre-Biotics & Pro-Biotics

Prebiotics for dogs aid in improving digestion, meaning that nutrients are absorbed better, particularly in the case of minerals) and the immune system works to its best. Prebiotics work by increasing the numbers of helpful bacteria in the digestive system.

Whey Protein

Protein is muscle food to build your puppy's fast-growing physique. and helps the absorption of vitamins. Plus it also helps to keep skin and coats healthy.

How to prepare

30 ml of
lukewarm
water

Use 10 gms of
Puppy Delight

Puppies' need may vary and the amount
can be increased or decreased
accordingly
